HOW TO COOK FISH.

What Delmonico Has to Say About Cooking Large and Small Fish—Directions for Sauce, Etc.

Delmonico in Christian Union.
Boiling seems to be the most legitimate way of cooking fish. It is certainly the most convenient and quickest, and almost all kinds of fish with which our markets abound, such as cod, sheephead, striped bass, sea bass, salmon and halibut, are most advantageously dressed in this way. The method of boiling for large fish is to put them in cold spring water—the less the quantity of water the fish can be boiled in the better—with a handful of salt thrown in. It is always safe to rub a little vinegar on the skin of the fish to keep it from cracking, and to make the fish solid. The time of boiling depends, of course, on the size of the fish. Ten minutes to the pound should be allowed for any other kind, but a good general rule is that the fish is done when the fins pull out easily. The water should be skimmed once or twice at least. A plain white sauce is made by putting a tablespoonful of flour or arrowroot in a small saucepan. Mix into a smooth paste with cold water, and one-half pint of the water in which the fish were boiled. Stir well until it boils and thickens. Add a tablespoonful of vinegar or lemon juice and serve in a gravy boat. In all the best methods of cooking fine fresh fish, the directions are very simple. The fish must always be well cleaned, carefully split in two from head to tail; dried, seasoned with salt and pepper, greased with a little oil (which is preferable to butter), and broiled to a nice brown color, the grid-iron having been previously well greased too. For all broiled fish the Maitre d'Hotel sauce is most delicious as well as simplest. Knead cold fresh butter on a plate with chopped parsley, pepper, salt, and lemon juice. The parsley will be improved by having been scalded. Serve a part of this cold, either under or on top of the fish, and it will melt as the fish is put on the table.

ANY FISH MAY BE BAKED, but it is better to use only fish which are large enough to admit of stuffing. The force meat may be made very rich and highly seasoned, or quite simple, but in either case let enough oil or butter be put into the fish to prevent its becoming dry. A good sized fish when stuffed, will require an hour's baking. Baked fish to be eaten to perfection, should be cooked with wine, either white or red, in the baking dish, besides chopped onion, salt, pepper and nutmeg, and while cooking the sauce should be spread over it several times. When the fish is done add to the wine sauce a sufficient amount of thickened gravy or broth, seasoned with mushrooms, tomatos, parsley, or in any way desired and pour the whole over the fish to be baked for a few moments longer. Squeeze a lemon over all and serve in the baking dish. In broiling or baking rather large, thick fish it is well to score them or make a few incisions with something pointed, in order to insure thorough cooking, and in case of baking, a thorough seasoning. All small fish—and many of the best fish are very small indeed—best when fried. The allowance of small fish is generally half a pound or less for each person. Fish may be deliciously fried in oil, after having been dipped in milk and then flour; or in very hot grease after being breaded with beaten eggs and crumbs. Great care should be taken that the pan does not take fire. To guard against this fry only a small quantity at a time.

The Industrial Crisis in England.

In Burnley 5795 looms are idle out of 33,000, and 307,870 spindles out of 900,000. In the Blackburn district 11,800 looms are idle out of 52,000, and 84,000 spindles are working on short time, and 48,000 are stopped altogether. In the Chorley district 1600 looms, owned by two firms, are working on short time. Nearly 20 other firms are running part of their machinery on short time; several have stopped theirs entirely. In the Bury district both the woolen and cotton trades are very much depressed. The average time of working in the woolen manufactories is about four days out of the week, and 406,000 spindles and 3720 looms are working on short time. In Stockport the prospect, especially in the weaving department, is said to be almost hopeless. It is computed that now only 50,000 spindles and 300 looms are working, against 1,195,000 spindles and 7900 looms five years ago. In Rochdale, it is stated, only five mills are working full time; 500 homes there are tenantless. The Manchester Guardian gives statistics that show the condition of trade in the Lancashire district, where the machinery of the factories is adapted for Indian cotton is even worse. Out of 100 mills only six (and these are comparatively insignificant) are working full time; thirty five are entirely stopped, and the remainder are only running on an average of 3 1/2 days out of the week. An agent of the Canadian Government at Manchester will start for Lancashire shortly with a party of Lancashire farmers, who have decided to realize upon their property and emigrate.

Fenianism Blazing Up.

From the New York Sun.

The hopes of the Fenian Brotherhood in this city have risen again in consequence of the agricultural distress in England and Ireland, partly through American rivalry in grain and cattle. They regard a reform of the land laws and a comparative impoverishment of the aristocracy as speedy results, and believe that an abolition of the expense of monarchy and the establishment of a republic will ensue. They view with satisfaction the heavy expense which the Zulu war is entailing, as an additional element of discontent in England, and trust that it will be sufficiently prolonged to cripple the resources of the country. These subjects were discussed with animation in the secret meetings of the several lodges in Academy Hall and elsewhere yesterday afternoon. The Brotherhood are watching transatlantic affairs with great interest, and their gatherings are invariably well attended. Mr. James Stephens, ex-Fenian Head Centre, has lately returned from a tour of several months through the Eastern States, and reports the Fenian clubs there as having large memberships, and as active and united. He will soon make a tour of the West.

East India Presidencies.

The East India Company ruled India by dividing it into three "Presidencies"—Bengal, Madras, and Bombay—and all their servants were appointed to one or other. This system continues. Bengal is much the largest, and the best appointments are there. The company, whose reign ended in 1858, paid in the long run considerably higher salaries than the Crown. With very few exceptions, the salaries now paid are not much in excess of those at home, but they are far larger in the beginning. The young men who would get \$750 in England get \$2000 in India. This arises from the absolute necessity of securing the services of young men, inasmuch as the risks to life from 40 to 50 are four times greater in India than in England, and consequently a civilian retires at 55, whereas his brother official in Downing street would stick on to 65 or 70. To make things equal, however, high pay must be given earlier.

Dr. Mintie's Nephreticum.

DR. MINTIE'S NEPHRETICUM works wonders. In all cases of Dropsy, Bright's Disease, Kidney, Bladder and Urinary Complaints, or Retention of Urine, these troubles are entirely cured by the Nephreticum. Female Weakness, Gravel, Diabetes, pain in the back side and loin are cured when all other medicines have failed. See what the Druggists of Portland and San Francisco say about Dr. Mintie's Nephreticum and English Dandelion Pills: "We have sold a large amount of Dr. Mintie's medicines; the English Dandelion Pills; also the Nephreticum, and in all cases they are highly spoken of and give entire satisfaction." John A. Childs, Druggist, Second street, Portland. C. H. Woodward & Co., Druggists, corner First and Alder street, Portland. Messrs. Abrams & Carroll, wholesale, Druggists, Nos. 3 and 5 Front street, San Francisco, say: "We regard Nephreticum as the best Kidney and Bladder Remedy before the public." All Druggists keep these medicines. For all derangements of the Liver, Use Dr. Mintie's English Dandelion Pills. For Biliousness and Dyspepsia, Use Dr. Mintie's English Dandelion Pills. For Fever and Ague, Use Dr. Mintie's English Dandelion Pills. Every family should keep the English Dandelion Pills on hand. Dr. Mintie's Remedies will not "Cure all Complaints," but will, if taken according to directions, give immediate relief and perfect a cure in all troubles for which they are recommended. Osburn & Shoemaker, Agents.

MORRIS & COMPANY, 19 and 21 Post street, San Francisco. Oil Paintings, Water Colors, Engravings and Frames. Velvet Frames of every description for cabinet pictures. These elegant goods are of the choicest description and are the latest productions of some of our most eminent artists. A free Art Gallery connected with the establishment contains the finest pictures in the city, and some of the finest in America. The latest productions of the best artists in the city go directly from the easel to this gallery. Visitors from Nevada are invited to inspect this fine collection. The display of Water Colors, Oil Paintings, Steel Engravings, Etc., etc., is very large and elegant. Artists' materials and every style of Frame to fill the largest order.

Sir Asstley Cooper's Vital Restorative: The great English remedy has made more cures of Nervous Debility, Seminal Weakness, Lost Manhood, nocturnal emissions, lassitude, inability for mental labor, despondency, and such diseases as are induced by youthful follies and excesses, than all other medicines combined.

It is not a stimulant nor excitant, is perfectly safe to take, is not a quick nostrum, and produces results that are wonderful. Why will you suffer? Send to A. E. Mintie, M. D., No. 11 Kearney street, San Francisco, or the Restorative, and be cured. Price, \$3 per bottle. Four times the quantity, \$10. Try a bottle. Dr. Mintie treats all private diseases successfully. Osburn & Shoemaker, Agents. 1850-1f

A Card. To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, etc., I will send a recipe that will cure you. FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. JOSEPH T. INMAN, Station D, New York City. 1850-1f

EDITORIAL NOTES

The Democrats of California are slow to swallow Glenn. They are loath to vote for a man who has never taken any interest in politics; for one who has never opened his mouth nor lifted his pen in the cause of the Democracy. They regard him as a load heaped upon the party by the Honorable Bilka. If Glenn had not been up so long as their candidate, they would probably haul him down. The Examiner made a very fair case over his nomination, but now makes the best of it, and says in effect, that Glenn "is good, devilish good!"

A well informed San Francisco correspondent thinks that the Workingmen will poll a strong vote in the coming election in California, but that Perkins is likely to be Governor. He says that many California Democrats who have never yet voted for a Republican candidate, repudiate the nomination of Glenn as a fraud upon the Democratic party, and that many of them will vote for Perkins in preference. Our informant is of the opinion that the Republican ticket will, in the main, be elected.

During the heated term it is well to remember that although ice is an excellent thing to apply to butter, ice water is apt to create a serious disorder in the stomach. Great care should be observed in using ice water as a beverage. A sip now and then will do no harm, but copious draughts of ice-cold water, coming in contact with the mucous membrane of the stomach, are apt to produce inflammation and a number of other troubles. And the more that is drank the greater will be the thirst.

Although news from the South in regard to the yellow fever is somewhat conflicting, it is certain from the number of deaths daily reported that the disease is making at least a slow progress. It appears, too, to be spreading, as a dispatch to-day reports a case at Raleigh, Tenn. The people of the South will not breathe easily until the coming of the frost, which cannot be expected for two months yet.

The American public are apprised by occasional dispatches that there is a war going on in South America. But they are about as much interested in the matter as in the internal affairs of Egypt. If one introduces the subject of the war in conversation, he is apt to be met with a yawn and the remark that, "yes I believe there is a war going on down there."

CONDENSED TELEGRAMS.

A fire yesterday destroyed \$30,000 worth of property at La Crosse, Wisconsin—a third insured.

Of the six carrier pigeons liberated at Columbus, Ohio, Sunday, at 5:30 A. M., one arrived at New York at 11:15 A. M. Monday, and a second at 2:50 P. M.

A Saratoga telegram says: Weather good; track fair. Bonnie Wood won the three-quarter-mile dash, Mark L. second; time 1:18½. Minther won the mile and three-quarter dash; time, 3:09¼.

A New York telegram says the following cable message has just been received there by the Peruvian Minister from the Minister of Foreign Affairs at Lima: "The Hauser entered the blockaded port of Iquique and fought the Chilean squadron two hours, leaving her of combat the Canis and the Abtao. The Hauser was unhurt."

A Pittsburg special says the losses at Petrolia and that neighborhood, by Saturday's flood, are roughly estimated at \$200,000. The scene during this destruction was terrible. Men, women and children rushed hither and thither in search of elevated positions where life would be secure. Many of the people lost all their effects, and are left in a state of destitution.

Arrangements were completed on Saturday night in New York City for a wrestling match between John McMahon and James Owens of Vermont. McMahon, who returned last Spring from an extended tour through California, Nevada and the Western States, in which he defeated every athlete whom he encountered, is the acknowledged champion of the country.

A Baltimore telegram says: Thomas H. Benner occupying the lodge at Antietam Seminary, was instantly killed by his wife on Sunday. He charged her with intimacy with Haverford, the Superintendent of the Seminary, and made an assault upon her, when she seized a carbine and shot him through the heart. She was lodged in jail at Hagerstown. She alleges that the shooting was done to save her own life.

An old book printed in London, in 1718 says: A Scot, a rat and a Yarmouth herring go all the world over."

PACIFIC COAST ITEMS.

The boys of Glisco who jump on moving trains are fined \$5 by the town authorities.

The Santa Clara Agricultural Society announce \$6,000 in purses at their coming fair.

Salinas, Monterey and Santa Cruz experienced a heavy shock of earthquake on the 29d.

Wesley Parker, of Wolf Creek, Union county, sheared 32 pounds of clean wool from one merino sheep this Spring.

The Los Angeles Express says: Among Santa Monica novelties, is the absence of mosquitoes in summer, and their presence in winter.

An unknown man while stealing a ride on a freight train between Martinez and Antioch, on Wednesday last, was thrown off the cars, run over and killed.

Two skeletons were taken out of the Banner mine at Norris ravine, near Oroville, on the 25th. They were those of two miners caved in upon twenty-two years ago.

Thomas Nichols, residing near the Wyoming mine, on Deer Creek, Nevada county, swallowed a half dollar last week, which has lodged in his breast, causing much pain.

P. B. Taylor, the present incumbent, being beaten in the Republican primaries for the nomination of Sheriff of Mono county, Cal., has announced his intention of running independent.

There are six widows in Rocklin who support themselves and their children by doing the washing formerly done by Chinaman. No Chinaman can rent a house or obtain employment in the town.

About eight acres of wheat and two of barley belonging to Thomas Williams on the Cooper ranch, Castroville, were destroyed by fire last Thursday afternoon. The fire is supposed to have been caused by a burning cigar, thrown aside by a passing Chirito, who was the only person seen in the vicinity a short time before the fire was discovered.

Thompson and Tichenor, who have been engaged for some time in extracting the gold from the black sand found on the Beach at New Year's Point, near Santa Cruz, have found, after a thorough test, that there is not sufficient gold in the sand to pay for working it. It is said that Bessemer steel can be manufactured from this black sand, and Thompson and Tichenor are now experimenting to that end.

STATE NEWS IN BRIEF.

The country around Falcon City is said to abound with prairie chickens and sage hens.

Last Sunday evening's service in Paradise: Man in from country; drunk but inoffensive. Rowdies blacked him all over with shoe blacking, then washed him in a horse trough.

Eight tramps were found in a sealed freight car at Winnemucca Sunday. Thermometer 100 in the shade. Car loaded with vegetables. Tramps were steaming when taken out, but recovered in open air.

In a "slaughtering match" at Virginia on Monday, for \$100 a side, Edward Green dressed five sheep in fifteen minutes and twenty-five seconds, winning by one minute. Green also dressed a bullock in seven minutes and ten seconds. Quick work.

An Intelligent Dog.

Hogg, the Ettrick Shepherd, declares that dogs know what is said on subjects in which they are interested. One day Hogg said to his mother, "I'm going to Bowerhope for a fortnight, and will not take Hector with me, for he is constantly quarrelling with the rest of the dogs." Hector being in the room, was missing next morning, and when his master reached Bowerhope, there was Hector sitting on a knoll, waiting his arrival. He had swam across the flooded river to gain the spot.

Talk is Cheap.

And so are fine clothing, boots, shoes and gentlemen's and boys' fine furnishings goods. If you go to the right place to get them. This is a mighty important point, for some people who assert that they sell cheap do nothing of the kind. We do not boast when we say that we defy competition in prices in anything in our line. Besides this we have only one price. We have no preferred customers. Everybody is treated alike at our establishment. Our stock is the largest and most complete ever offered in any part of this state. Everything we have is new. No old, musty, and out-of-date goods can be found on our shelves. We receive daily by rail and express the latest and best goods, which are obtained at first hand and sold at prices below those now prevailing in New York and Chicago. Let the people come and judge of our prices, and examine our stock before going into those humbugging, cheap John shops, in which they draw into the ear of the customer that they sell at cost and even below cost. Anybody with common sense must know that they lie. No stereotyped sales goods for the fun of the thing, we make a profession of everything we sell, as every honest merchant does, and don't print foolish falsehoods in the vain hope of deceiving the public. We particularly call attention to our full stock of fancy underwear, such as is kept nowhere else in Reno. This class of goods forms one of our specialties. Remember this place, the White House, No. 19 Commercial Row.

JOTTINGS.

—N. Nathan keeps an elegant cigar. —Grasshoppers are now thick in Mohawk valley and moving west. —O. Ayers is building a house on the corner of Plaza and Virginia streets. —The Arcade restaurant is one of the nicest places to get a meal in the State. —A choice variety of fresh California fruits can be found at C. J. Brookins. —Somebody forgot something at J. K. Everett's store. He wants them to come and get it. —Winchel & Cunningham propose to do a strictly cash business hereafter. See their new ad. —The front of the Steele & Becker block is undergoing the beautifying process of being painted. —A gang of men are at work are building the flume between Lake & Beck's mill and Virginia street. —The first crop of alfalfa on the Meadows is about harvested, though some late fields remain to be cut in places. —Daniel O'Keefe gave bail yesterday and Reynolds was sent to jail Sunday night, instead of the reverse as the item was given to the reporter. —The heated term has started a number of Renaites to the mountains to rusticate. A good many will probably get out of town in the next week or two. —Smith, the butcher, and Kelly, the nurseryman, are fixing up a traveling meat market. They will deliver steaks by daylight all over town. They have a neat and clean little slaughter house on the north end of town. —The stray cur no longer abounds in the streets, the town of Reno having at down on him officially, as it were. No more do the bickering of the rural cur with the canine street gamin gather crowds and furnish local items. —A Pioneer Returned. Mr. Culverson, an old-time resident of Reno, who removed to Texas over ten years ago, is back again on a visit. He has, it is stated, a large interest in mining property at Mendocino Lake. Mr. Culverson has gone to that district, but will be in town once more for a day or two, and will be glad to see his old friends.

Justice Court Matters.

Thomas Reynolds, one of the parties to the row on Virginia street Sunday, had his trial yesterday afternoon, and was acquitted. The other party, Dan O'Keefe, was brought up this morning. His trial has occupied the court all day. A jury was empaneled and have the case under advisement.

FLY FISHING IN THE TRUCKEE.

Truckee Trout will Take the Artificial Fly—An Item of Great Interest to Anglers.

Many persons think that the Truckee trout will not take the artificial fly. Some anglers who have tried fly fishing in the river at Reno have given it up in disgust, despairing of a rise. There is a tradition of a Scotchman who succeeded in taking Truckee trout with the fly, during some remote period. But that Scotchman is believed by some disappointed anglers to be a mythical personage, whose identity it would be extremely difficult to establish. The GAZETTE has now an item of great interest in this connection. Last evening a GAZETTE reporter was at Prosser Creek, about twenty-seven miles west of Reno, on the line of the railroad, fishing ("unofficially") with B. B. Redding, a fish commissioner of California. Prosser Creek flows into the Truckee at the station, and about a quarter of a mile up the creek, a little above the dam, Mr. Redding

HOOKED WITH THE FLY, and landed a small Truckee trout (*salmo henshawi*). The fish had the dark marking peculiar to that species, and must have entered the creek from the Truckee river. Shortly afterward Mr. Redding hooked another trout, of at least two pounds weight, but did not succeed in landing him. He has, on another occasion, taken with the artificial fly several trout at the same place. The fly taken last evening was of a bright red color and of medium size. Mr. Redding thinks that in the early morning and at sunset the persevering angler should have success with the fly on the Truckee river.

Reno a Growing Town.

Building in the business portion of town has slackened up considerably now that the burned district is almost rebuilt, but there is still a great deal going on in the suburbs. Reno is steadily and quietly growing. Despite the prevalent complaint of the scarcity of money, a general improvement is manifest. A walk around the outskirts of town will make this apparent to the most superficial observer. People coming here are surprised at the extent of the building going on, and say that business appears as active, if not more so, here as in any place on the coast. Times are a little dull with us now, and what place does not have its seasons of dullness? But this is always the dull season of the year for Reno, and the natural reaction from the rapid building after the fire, helps the depression. Taking all things into consideration, business is as brisk as could be expected. And it proves the permanence and assured prosperity of Reno. Continually new accessions are made to our resident population, new homes are being built, and more land improved and placed under tillage. The surrounding country is keeping pace in the march of progress with the town. Every year the crops are larger, more diversified, and, consequently, more valuable. This adds to the trade, and increases the importance of Reno.

A Truly Good Reason.

The following story is told of a clever and somewhat noted sagebrush divine not a thousand miles from Eureka. The occurrence happened several years ago when the parson was pastor of a congregation, whose principal characteristic was liberality—both as regards supporting the church and construction of the scriptures. One Sunday evening when the congregation had gathered in the church to hear the word as usual, the minister was a little behind hand in coming out of the vestry. When he did come it was with a lively bustling air, quite in contrast to the solemn deliberation usually affected by the clergy. He delivered a sermon about fifteen minutes in length, and cutting the rest of the services short dismissed the congregation. One of the pillars of the church whose regard for the preacher arose from the latter's appreciation of the world's goodthings, went around to the door of the vestry, and meeting the minister coming out, asked him why the services were abbreviated so. "Why," replied the clergyman, "I have been playing in a poker game, and left a fellow to play my hand till I came back." The lay member admitted that his conduct was perfectly justifiable under the circumstances.

"Belly Good Soup."

Seldom does one find a humorous Chinaman. But there is a story told of a Mongolian domestic in Reno, which shows that there is at least one comic Asiatic in the town. A gentleman who is fond of fishing, recently sent his Chinaman into the garden to dig some earth worms for bait. Shortly afterwards he heard the Chinaman laughing loudly in the garden. When John came in the gentleman asked the cause of his merriment. John said: "Me dig worms in garden. Lady come along and say, 'what you going to do with worms, John?' Me say, make soup—belly nice soup. She put up her hands and say, 'Oh! Oh!' then run heap quick."

Fishing at Independence Lake.

B. B. Redding, Land Agent of the Central Pacific, and J. L. Wilcutt, Secretary of the Southern Pacific, were fishing at Independence Lake yesterday. The trout spawned last month and the angling has not since been good. They succeeded in catching several dozen fine fish, however. Some were taken by trolling minnow and artificial fly, and others were caught in Independence Creek flowing out at the foot of the lake. It is thought that the trout in the lake will soon again be biting well.

A TRAVELER IN RENO.

A Special Correspondent of the Battle Mountain Messenger Prophesies.

"Nineteen years ago we camped where the city stands, when there was but one house. It is dull at Reno, the same as everywhere, but the future of the city is fixed, and will make a large inland city. The main part of the town, which was destroyed by the late fire, is being rapidly built up with fine, substantial buildings. The Depot Hotel, W. R. Chamberlain proprietor, just finished upon the ground where the former one was burned, is the finest hotel on the whole line of the C. P. R. R., and is kept in the most orderly, neat, and pleasant manner imaginable.

IT IS THREE STORIES, with high ceilings, and all the rooms large and neatly furnished with the very best furniture that could be obtained in the San Francisco market. The building is, if our memory is right, 170 feet long by 40 in width; and finished substantially in the most approved modern style. The whole cost \$30,000. Mr. Chamberlain is a very pleasant, intelligent gentleman, understanding well his business. The clerks and keepers are well calculated for their situations, which makes this house a desirable place to stop. Reno is surrounded not only with mines, but also with fine lands. It is surprising to see

THOUSANDS OF ACRES OF LANDS, once thought worthless, now in clover and grain. The country round about has much the appearance of an old farming neighborhood in the East. Reno has two High Schools, besides the district school; the Female Seminary, managed by Rev. Bishop Whitaker, and the Catholic School, by the Sisters. There is no High School for boys, but will be, no doubt, in the near future. Churches of different denominations exist in Reno, as they do in every town of any considerable size on the coast. On Sunday evening we attended the Methodist church, and listened to a very able discourse."

THE COAST SURVEY.

Completion of their Observations at Mount Lola—Preparing for a Move.

The surveyors under Prof. Davidson have about completed their work at Mount Lola. Yesterday most of their outfit was brought down to Independence Lake on mule-back from the mountain top. Two observers will remain at the signal station until November. Prof. Davidson will stay with his force a few days on the shores of the lake to make some additional observations. The next move will be to Roundtop Mountain, fifty-eight miles distant. Watkins, the San Francisco photographer, has been taking a series of views from Lola. He has been busily engaged there for a week. The outlook from Lola, at an elevation of 9300 feet, is wide and grand, so that Watkins has, no doubt, secured a series of fine pictures.

A Sneak's Cowardly Revenge.

Some miscreant to vent a mean, cowardly spite, has been trying to injure Mr. Beemer's business of sprinkling. Several times lately he has gone to his water tank in the morning, and found that some sneaking scoundrel had tapped and drawn off the water during the night. The motive was plainly malicious, as the water was allowed to run to waste. Two or three times he has found the hose used to conduct water from the tank to the wagon cut. He is at a loss to conceive who does the mischief, as he knows no person at particular enmity with him. This system of persecution is not only annoying to Mr. Beemer, but to the business men, as it causes delay in sprinkling the streets. Whoever the party is, he is a contemptible scoundrel, and should be dealt with severely if caught.

Plans for the New School Building.

The school trustees met last evening and studied plans until bed time when they adjourned until this evening. Nine plans were put in, some from Reno, others from San Francisco and Virginia. Three excellent plans were submitted by Reno architects, one by McKay who planned Chamberlain's hotel, one by Park of the St. Mary's academy, and one by Heald of the new Lake and Beck mill. Two excellent plans were sent up from San Francisco. The board is doing its work carefully and will give Reno the very best possible building at the lowest possible cost.

Got the Deeds.

Secretary of State Babcock came home from the Bay this morning. During his temporary sojourn in the city of Saint Francis, he got deeds from the railroad company, for the 215 acres of State land which cover the asylum and State prison ground. The State had a contract for a deed, and paid the money, \$5 per acre, years ago, but never got the papers. He also bought 2 1/2 miles of 4 inch iron pipe to be used in conveying water about the premises.

Auction Sale.

There was an auction sale of buggies and harness on Barnett's corner today. An eastern man was doing the selling. The prices realized were quite low. Consequence of not advertising in the WEEKLY GAZETTE, subscription price \$2.50 a year.

Yes, Quite Warm.

The mercury slowly rises in the thermometer. Yesterday noon it stood at 97 in the shade. If there is no change in the weather it will climb over the 100 mark in a few days.

General A. J. Hatch and Rev. J. D. Hammond were passengers from San Francisco to Carson, on No. 3, last night.

Thos. Ward, brother of Jas. Ward who died at the Depot hotel last Saturday, is in town to take charge of his brother's effects.

T. N. Fish of the firm of Aitken & Fish, Sacramento marble dealers, is in town taking orders for tomb stones and monuments. The firm is one of high standing and does as fine work as any on the Coast.

M. J. Kent, traveling correspondent for the San Francisco Post, and who writes under the nom de plume of "Mariner," is in town, and leaves tonight for Battle Mountain. Mr. Kent has been taking a look at the situation in Butte, Sierra, Plumas, and Lassen counties, California, and says times are not very lively up that way. Every body is waiting to see what the political campaign will bring forth. The Republicans throughout the whole State are making an organized fight, and he is confident, will sweep all before them.

Clerical Amenities.

Virginia Chronicle. Rev. G. R. Davis of Carson, and Rev. W. R. Jenvey of Reno, never lose an opportunity of giving each other a sly dig. Yesterday Parson Davis preached at Reno, and while taking breakfast at Parson Jenvey's house remarked:

"Guess I'll take some more steak, as I have to preach." "Guess I'll brace up a little too," rejoined Jenvey, passing his plate for another section of the meat; "I've got to listen."

Of Interest to Miners.

An exchange refers to the fact that the supreme court of the United States has decided that if a location be laid crosswise of a lode or vein, so that the greatest length crosses the same instead of following the length thereof, it will secure only so much of the vein as it actually crosses at the surface, and the side lines of the location will become the end lines thereof, for the purpose of defining the rights of the owners.

Fell From a Box Car.

The Frenchman found on the street yesterday with his head cut open, was taken to the county hospital after Dr. Snow had dressed the wound. He gave his name as Moses Lebarge, and said he had fallen backward from the top of a box car. Although the hurt is a very severe one, he will doubtless recover. He is very weak though, from great loss of blood. Lebarge had just come down from Verdi.

LEGAL NOTICES.

Summons.

IN THE DISTRICT COURT OF THE Second Judicial District of the State of Nevada, in and for the county of Washoe. The State of Nevada, to the said Jones greeting: You are hereby required to appear in an action commenced against you as defendant by the plaintiff in the District Court of the Second Judicial District, and for the county of Washoe, State of Nevada, and answer the complaint therein within ten days after the service on you of this summons, (exclusive of the day of service), if served in said county, or twenty days if served out of said county, but within said district, and in all other cases forty days; or judgment by default will be taken against you, according to the prayer of said complaint. The said action is brought to obtain a decree dissolving the bonds of matrimony heretofore and now existing between plaintiff and defendant. Plaintiff alleges: That plaintiff and defendant were married at Reno, Nevada, on or about July 29th, A. D. 1878, and ever since have been and now are husband and wife; that on or about September 9th, A. D. 1878, you, the defendant, willfully deserted and abandoned plaintiff, and ever since have so continued and do now so continue to desert, abandon and live apart from the plaintiff against her will, with or consent; that for more than a year next preceding the commencement of this action you, the defendant, have failed and neglected and now do fail and neglect to provide for the plaintiff the common necessities of life, which neglect is and was the result of poverty on your part, which you could not have avoided by ordinary industry; that there are no children living of the issue of said marriage and no common property. Plaintiff prays to be restored to her maiden name and for costs, all of which will more fully appear from the complaint which is on file in the office of the clerk of said court at Reno, in said county. And you are further notified, that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof I, P. B. COMSTOCK, have hereunto set my hand and affixed the seal of said court this sixth day of December, A. D. 1878.

P. B. COMSTOCK, Clerk of the District Court of the Second Judicial District, Nevada, in and for Washoe County.

WHY STAY POOR?

Prospecting often Pays; Idleness Never.

The millions of the Comstock were a lucky find. Worthless looking rock is often rich in treasure. At Leadville a mile nearly made millions of many. Other bonanzas were least suspected until the coming of some unknown man. Why not?

At Virginia City, Nevada, assays for Gold and Silver are made at \$1.00 per sample, by CORRAD WIEGAND, formerly the Supervising Assayer of the U. S. Mint at San Francisco.

The mail will carry ore-samples to his office for one cent per ounce.

Reports which may be relied on absolutely, come back by return mail, or results are telegraphed when ordered so.

All costs, delays and risks in remitting money are avoided by the purchase of our Dollar Remittance tickets, which pay for all work done in our establishment.

We sell these prepaid tickets at a discount, when \$5 worth or more are ordered at one time.

Small checks for mailing ore samples also for sale at a nominal price.
